

## THE PEAKS @ EAGLE RIDGE

News Letter June - July 2014

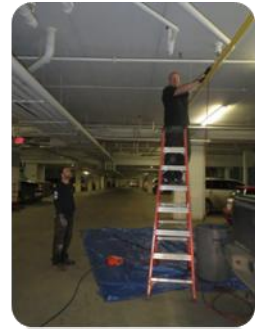

### Maintenance

There are areas in the parkade that are not suitable for trucks that are too high, especially some of the company vehicles. There is a real risk of piping being damaged and a huge expense to all the owners.

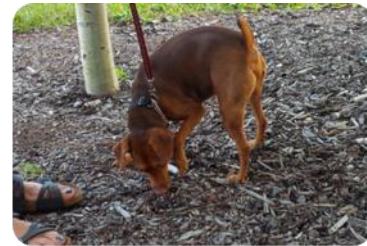

Workers hard at work clearing the kitchen drains. They were explaining there was an immense amount of grease in the pipes that needed cleaning up. We can learn that we need to reduce the amount of fat & oil that is disposed of down the kitchen drains to avoid unnecessary maintenance.

### Grounds

We encourage you to use the wood mulch area for the dogs to urinate on. This will help our lawn recovery.
